DECLARATION UNDER 37 C.F.R. §1.132

Commissioner of Patents
P. O. Box 1450
Alexandria VA 22313-1450

Sir:

I, Herbert M. WILSON, of 1915 Stevenson Drive, Ames, Iowa 50010, hereby declare that:

I graduated from University of Leicester (United Kingdom) in 1975 with a Ph.D. in Plant Cell Biology.

I was employed by Pfizer, Inc., from 1982 to 1986, where I was a senior scientist in the Plant Genetics Department.

I was employed by ICI Seeds, Inc., from 1986 through 1994, where I was Cell Biology Project Leader.

Since 1995, I have been employed by Stine Seed Company as Director of Stine Biotechnology.

I am a co-inventor of the invention described and claimed in the above-identified application and am familiar with the Final Office Action dated November 19, 2004, in which the Examiner requests the origin, the pre-transformation, and the post-transformation traits (including multiple ears and retention of other elite characteristics) of the photographed corn plants shown to the Examiner during the interview of November 17, 2004.

The photographed corn plants are the transformed regenerants of Stine inbred 963.

The pre-transformation traits of the photographed corn plants consisted of plants with two ears per plant of Stine inbred 963.

The post-transformation traits of the photographed corn plants consisted of more than two ears per plant.

I, the undersigned, declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issuing thereon.

Date: 2/22/05

HERBERT M. WILSON
